

Google Tools Worksheet

What subject area is your focus?

Based on your investigation of the Google Tools, what grade levels can benefit? How?

Using the *Fire and Fire Safety Lesson* as an example, what CT Framework is addressed?

What essential question would you assign to your students?

Which tools can your students use to develop responses to your question?

What are some applications of lessons a teacher could use with this example?

What adaptations can be made for students with special needs?

Give one suggestion for using one specific Google tool in your current classroom setting.
